

## **Have you ever truly fallen in love?**

**by Samantha Hicks**

**What does love mean? Well, in the dictionary it means: a strong affection for, or attachment, or devotion to a person or persons, but does anyone really know what it means? To me I think love is just something that happens. You don't really know when it will happen, but when it does, you just know.**

**Many people can also get love mixed up with lust . That's why I think many celebrities and other couples get a divorce, or break up, because they don't really know what love is. Instead of them saying "I Love You," it should probably be more like "I Lust for you." But, what do I know. I've never fallen in love with anyone. The only people that tell me they love me are my family and friends. Someday I hope to fall in love, but God will show me who I'm meant to be with when He thinks I'm ready. He'll also find your true love for you.**

**Many guys, but not all, don't really look at a girls heart or personality. Instead they look at a girls physical apperance. Many girls are the same way. Often times we try really hard to impress the guys, but most times it doesn't work out.**

**If we don't take the chance to find out about someone we may miss out on someone amazing .**
